

Galgos del Sol, Murcia

We have been able to fund the building of some mini kennels at Galgos del Sol in Murcia. Tina and her team rescue many galgos in and around their area and work tirelessly to give them every chance to recover from their ordeals and have the chance of life in a home.

We have supported Tina for some years now and on our second visit in 2015 we were able to visit the site of the new shelter, it was huge and work had just started on the first kennel block. (photos below)

Over the years we have continued to support the work of Tina and her helpers with funding for initial veterinary costs, education grants etc and also been able to take some galgos from her for homing here in the UK.

Our new group will be coming from Galgos del Sol later this year.

We heard from Tina earlier this year that the final project at the shelter was to provide two day parks for the galgos, two areas at the far end of the site, away from the kennels where the dogs could spend the day and chill out with each other and the volunteers.

Some dogs do not do well in a kennel environment no matter how much love and care they receive and for the nervous dogs these parks should prove invaluable.

We were therefore pleased to be able to offer some funding towards the mini kennels that were needed in these parks to provide some shade for the dogs.

The mini kennels are now complete and Nomi at Galgos del Sol is getting them ready for the galgos.
